Tidewater Arts Outreach

OUR MISSION: Enhancing wellness in people with special needs and circumstances, through the healing power of the arts.

WHAT WE DO: We match artists and teachers with **outreach** opportunities to share their talents with people who can't get out and participate in the arts.

We **train** artists and caregivers about the benefits and best practices for arts engagement with special needs populations.

We **advocate** for people with special needs and their caregivers, and the power of the arts to improve quality of life, bring people together from diverse backgrounds, and help us understand, appreciate and respect each other more.
