Dear Ms. Toboz,

I am writing to express support of Tidewater Arts Outreach and the excellent programs which they have presented to our community. The musical programs which have been offered have enriched the soul and stimulated the minds of our residents. We have observed our residents becoming actively involved in the performances and feel much more connected, heard, and appreciated. As a result of the TAO programs, they feel better and are emotionally refreshed.

Your staff works tirelessly to promote different artists so as to promote culturally diverse arts experiences. From guitarist, pianist, harpist, poetry readings, drumming circles, etc. – all these presentations have a huge impact of the wellbeing of our residents.

The Arbors at Port Warwick is pleased to continue a relationship that is beneficial to us and to Tidewater Arts Outreach.

Sincerely,

Beth Parisher
Director of Resident Services
